PROFILE

A dedicated Full-Stack Developer with a strong foundation in both front-end and back-end development — from VB.NET desktop systems to modern PHP and React web applications. Seeking a challenging position to leverage my skills in a dynamic and progressive company.

WORK EXPERIENCE

Back-End Developer: Intern to Full Time

May 2023 – Present

Excellence and Innovation

- Ensured seamless integration between server-side applications and front-end development.
- Handled data storage, retrieval, and processing.
- Collaborated with front-end developers to meet application needs.

PROJECTS HANDLED

Laundry Tracking System

College Capstone

Lead Programmer

- Developed a system to monitor laundry shop operations, keeping employers informed on service status.

Tech: VB.NET, Microsoft SQL Server, SIM800C

Enrollment and Admission System

Internship

Full-Stack Developer

- Managed server-side logic and API development for student enrollment processes.

Tech: PHP, MySQL, React, Tailwind CSS, Postman

Cooperative System

Present

Full-Stack Developer

- Created APIs and managed backend logic and front-end integration for a system mimicking traditional banking features for cooperatives.

Tech: PHP, MySQL, React, Tailwind CSS, Postman

Accounting System

Present

Full-Stack Developer

- Contributing to an accounting system covering petty cash disbursement, journal entries, and other financial components.

Tech: PHP, MySQL, React, Tailwind CSS, Postman
