PROFESSIONAL SUMMARY

Programming Specialist and Full-Stack Developer with 3+ years of experience building web, desktop, automation, and computer vision applications. Experienced in backend development, REST API design, database integration, responsive frontend development, and legacy system modernization. Works across React, TypeScript, JavaScript, PHP, Python, Node.js, Laravel, MySQL, MongoDB, Microsoft SQL Server, and VB.NET.

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, Python, PHP, VB.NET, C#, SQL

Frontend: React, Tailwind CSS, HTML5, CSS3, Framer Motion, Vite

Backend: Node.js, Laravel, REST APIs, server-side application development

Databases: MySQL, MongoDB, Microsoft SQL Server, database design

Tools and Platforms: Git, GitHub Actions, Docker, Postman, Vercel, VS Code

AI and Desktop: MediaPipe, OpenCV, PySide6, Windows Forms, .NET Framework

PROFESSIONAL EXPERIENCE

Backend Developer (Intern promoted to Full-Time) | May 2023 - Present

Excellence and Innovation | Philippines

- Develop and maintain server-side application logic, REST APIs, and database workflows for web-based business systems.
- Manage data storage, retrieval, validation, and processing using PHP, MySQL, and Microsoft SQL Server.
- Integrate backend services with React and Tailwind CSS interfaces in collaboration with frontend developers.
- Support enrollment, cooperative, and accounting applications from requirements analysis through implementation.

SELECTED PROJECTS

Lightem Business Management Platform | Full-Stack Developer | 2024 - Present

- Frontend: Build responsive React interfaces and integrate tenant-aware workflows across accounting, inventory, POS, HRIS, payroll, sales, ticketing, and reporting modules.
- Backend: Develop and maintain authenticated PHP JSON APIs, JWT access and refresh flows, business logic, validation, and MySQL data access through PDO.
- Connect frontend forms and server-state workflows to backend controllers and gateways while preserving reliable request and response contracts.

Technologies: React, Vite, JavaScript, Tailwind CSS, Material UI, React Query, Zustand, PHP 8.2, MySQL, PDO, REST APIs, JWT

Enrollment and Admission System | Backend Developer | 2023

- Developed server-side logic and REST APIs supporting student registration, enrollment, admission, and record-processing workflows.
- Integrated PHP and MySQL services with React and Tailwind CSS interfaces in collaboration with frontend developers.

Technologies: PHP, MySQL, React, Tailwind CSS, REST APIs, Postman

Laundry Management System | Lead Programmer

- Led development of a Windows desktop system for customer records, transactions, service pricing, inventory, receipts, and audit logs.
- Integrated Microsoft SQL Server data workflows and SIM800C-based status notifications for laundry operations.

Technologies: VB.NET, .NET Framework, Windows Forms, ADO.NET, Microsoft SQL Server, SIM800C

EDUCATION

Bachelor of Science in Information System | Richwell Colleges Incorporated | 2019 - 2023

ICT - Programming | Atec Technological College | 2017 - 2019

CERTIFICATIONS

Web Development NC III | Technical Education and Skills Development Authority (TESDA) | 2026

Tech Trends: Data Analytics, Intermediate Session | Department of Information and Communications Technology (DICT) | 2022

Tech Trends: Blockchain, Intermediate Session | Department of Information and Communications Technology (DICT) | 2022
